

## Fire Blankets

Fabric Title	Glass-Tex EN 1869-1997	VR 136 G
Fabric Type	Glass Fibre Fabric White silicon coating on two sides	Glass Fibre Fabric Loomstate
Fire Blanket Packing	Tubular red rigid PVC case With external nooses for a easier extraction of the fire blanket	Soft red PVC bag With reinforced edges and easier opening
Fire Resistance	-	Incombustible
Fabric Weight, gr/m <sup>2</sup>	-	420
Fabric Thickness, mm	0,2	0,4
Available Sizes, mm	1200x900	1000x1000
	1200x1200	1200x1000
	1500x1200	1200x1200
	1800x1200	1500x1000
	1800x1500	1500x1200
		1500x1500
		1800x1200
		1800x1500
		1800x1800
		2000x1000
		2000x1200
		2000x1500
		2000x2000

*Glass-Tex (EN 1869-1997 certification) is an important piece of emergency equipment, suitable for smothering and therefore extinguishing small fires caused by hydrocarbons.*

*VR 136 G, ideal for safety cabinets and wall units, can be used for smothering small fires.*
